

Sabrina Centeno

Apopka, FL 32703 | (954) 336-9743 | sabrinaplz@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

UCF B.S. in Computer Science student with hands-on experience developing backend systems, web applications, and interactive software. Contributed to team-based projects involving system monitoring, automation, and user-facing design, with a strong interest in building reliable, data-driven solutions within financial technology.

EXPERIENCE

Applied Technology in Finance Intern

Bank of New York | Orlando, FL | Spring 2026 – Fall 2026 (Incoming)

- Completed a semester-long internship program with BNY, gaining exposure to industry practices, financial technologies, and modern system design through expert-led sessions.
- Partnered with a 4-person team to design and build “Angelica,” an agent-based system that monitors application health, autonomously takes corrective action, and coordinates between agents to resolve system issues.
- Led backend development by integrating AppDynamics, Prometheus, and PostgreSQL to enable real-time data processing and automated responses, delivering a human-on-the-loop issue detection system that improved monitoring efficiency.
- Earned a return offer to extend the internship through Fall 2026, transitioning focus from application development to infrastructure engineering.

Web Developer

Girls Who Code at UCF | Orlando, FL | January 2026 – May 2026 | ucfgirlswhocode.org/

- Built the organization’s first official website using React and TailwindCSS, partnering with a team of 9 developers to establish reusable UI components including the navigation bar and footer.
- Developed key landing page sections and a dynamic gallery feature to showcase club events and projects, improving content accessibility and site-wide consistency.
- Coordinated with teammates and organization leadership to align design and functionality with club goals.

Accounts Payable Coordinator

Morgan and Morgan P.A. | Orlando, FL | October 2023 – Present

- Coordinate the firm’s Chrome River/Emburse-NetSuite implementation, managing system tickets and leading weekly meetings with Emburse’s team to align on invoice and expense functionality.
- Test and validate new invoice and expense functionality prior to rollout to ensure system reliability.
- Approve and process 26+ bulk payments monthly via ACH after training the Global AP team on bulk payment processing and special projects, scaling beyond a prior workload of 50+ solo bulk payments.
- Train Global AP team and process Virtual Credit Card transactions of up to \$1.2M weekly and reconcile monthly vendor statements using Power Query across 10+ subsidiaries.
- Oversee accounts for 50+ major vendors, processing up to 30,000 invoices monthly using Emburse Enterprise AI OCR software, while managing high-volume email queues to support legal staff on daily inquiries.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python, Java, C/C++

Frameworks & Technologies: MongoDB/Mongoose, PostgreSQL, Express.js, React.js, Node.js, TailwindCSS, DaisyUI, MySQL/Sequelize, GraphQL, Apollo, Heroku, Webpack, jQuery, Bootstrap, Materialize, Godot

Tools: GitHub, GitLab, Git

PROJECTS

Potions and Puzzles

github.com/Sabplz/PotionsNPuzzles

Narrative-driven puzzle game following a witch who must complete challenges to regain her lost powers, with branching outcomes based on player decisions.

- Implemented core gameplay systems, including a functional inventory system to manage items and support puzzle mechanics.
- Built using Godot (GDScript), with a focus on game logic and interactive systems.

Concert Connect

github.com/Sabplz/Concert-Connect

Social platform for concertgoers to connect with others attending the same shows, share show reviews, and discover new events.

- Built backend functionality and frontend components, working across the full MERN stack.
- Implemented Apollo and GraphQL for the backend and TailwindCSS for responsive frontend styling.

EDUCATION

University of Central Florida — Bachelor of Science in Computer Science

Orlando, FL | Fall 2025 – Present (Expected May 2028)

Valencia College — Associate of Arts

Orlando, FL | Summer 2020 – Summer 2025

University of Central Florida — Certificate in Full Stack Development

Orlando, FL | March 2023 – August 2023
