Github: <https://github.com/Sabplz>

Portfolio: <https://sabplz.github.io/Portfolio/>

UCF B.S. in Computer Science student with practical experience developing backend systems, web applications, and interactive software. Has contributed to team-based projects involving system monitoring, automation, and user-facing design, with a strong interest in building reliable, data-driven solutions within Financial Technology.

EXPERIENCE

Web Developer

Girls Who Code at UCF | Orlando, FL | January 2026 - Present

- Collaborated with a team of 9 developers to design and implement reusable, responsive UI components including the navigation bar and footer, improving site-wide consistency and user experience.
- Contributed to the development of key landing page sections, coordinating with teammates to align design and functionality with organizational goals.
- Designed and built a dynamic gallery feature to showcase events and projects, working closely with the team to ensure seamless integration and improved content accessibility.

Applied Technology in Finance Intern

Bank of New York | Orlando, FL | January 2026 - April 2026

- Participated in a semester-long internship program with BNY, gaining exposure to industry practices, financial technologies, and modern system design through expert-led sessions.
- Collaborated in a 4-person team to develop "Angelica," an agent-based system capable of monitoring application health, autonomously taking corrective actions, and coordinating between agents to resolve system issues.
- Led backend development by integrating AppDynamics, Prometheus, and PostgreSQL to enable real-time data processing, automated responses, and system reliability.

Accounts Payable Coordinator

Morgan and Morgan P.A. | Orlando, FL | October 2023 - Present

- Manage high-volume email queues to support legal staff with cost check payments and inquiries.
- Utilize Microsoft Excel to execute and reconcile bulk payments for high-volume vendors.
- Perform statement reconciliations using Power Query in a monthly basis for multiple vendors and across 10+ subsidiaries.
- Process and reconcile Virtual Credit Card statements for all cost-related expenses on a weekly basis.
- Oversee accounts for 20+ major vendors, accurately processing 10,000+ invoice requests monthly.

TECHNICAL SKILLS

Technical Languages: HTML5, CSS3, C, JavaScript, Python, Java.

Technologies: MongoDB/Mongoose, PostgreSQL, Express.js, React.js, Node.js, TailwindCSS, DaisyUI, MySQL/Sequelize, GraphQL, Apollo, Heroku, Webpack, jQuery, Bootstrap, Materialize, Godot, GitHub, GitLab, Git.

PROJECTS

Potions and Puzzles

<https://github.com/Sabplz/PotionsNPuzzles>

Potions and Puzzles is a narrative-driven puzzle game following a witch who must complete challenges to regain her lost powers, with branching outcomes based on player decisions.

Main responsibilities included implementing core gameplay systems, including a functional inventory system to manage items and support puzzle mechanics. Built using Godot (GDScript), focusing on game logic and interactive systems.

Girls Who Code @ UCF Website

<https://ucfgirlswhocode.org/>

Developed a responsive website for Girls Who Code at UCF to showcase events, resources, and community initiatives.

Main responsibilities included building the navigation bar, footer, landing page sections, and a dynamic gallery feature, while collaborating with a team of 9 developers. Built using React and TailwindCSS, with a focus on reusable components, responsive design, and user experience.

EDUCATION

University of Central Florida | Graduation: May 2028

Bachelor of Science Degree in Computer Science

Valencia College | August 2025

Associate's in Arts Degree

University of Central Florida | August 2023

Certificate in Full Stack Development
